Enhancing  
Solutions  
from  
*Hurst!***

### **Invest in the comfort of your staff and increase their productivity!**

You spend up to 8 hours a day in your office chair. A properly fitted ergonomic chair will help your staff stay comfortable and more productive by reducing stress and fatigue. An extra 15 minutes of productivity per day will save over \$500 per year for each full time staff member!

In addition to the benefits of a new chair, a chair mat further reduces stress and fatigue by allowing easier movement around the workstation. Chair mats also reduce carpet soiling and wear, which saves you money on cleaning and replacement costs.

**Contact your Hurst representative for a free seating consultation and test drive today!**
